

A FIRST-OF-ITS-KIND 360° INTEGRATED VASTU MASTERY JOURNEY

THE VASTU GRANDMASTER PROGRAM

Professional Course Module Brochure

A structured path from Vastu fundamentals to integrated diagnostics, practical remedies, industrial projects and professional consulting mastery.

ONLINE COURSE	STARTS 4 JANUARY 2027	DURATION: 3 MONTHS
15 CONCEPT-BUILDING CLASSES	WEEKEND PRACTICAL CASE LABS	COURSE FEE: ₹52,700

by Acharya Vikul Bansal

PROGRAM VISION

The Complete Applied Vastu Framework

The Vastu Grandmaster Program is designed for learners who have studied one or more Vastu systems but still need a clear method for diagnosis, selection of remedies, case execution and professional delivery. The curriculum unifies classical knowledge, contemporary application, energy assessment, tools, rituals and sector-specific practice into one result-oriented consulting framework.

The transformation

FROM	Scattered knowledge, isolated techniques and uncertainty in live cases
TO	A structured 360° process for analysis, treatment, validation and client delivery
FOR	Residential, commercial, business, institutional and industrial spaces

Program pillars

DIAGNOSE	INTEGRATE	APPLY	VALIDATE	DELIVER
-----------------	------------------	--------------	-----------------	----------------

Professional promise

Develop the confidence to understand the purpose of a property, identify the real energetic and structural causes, select the right intervention, execute remedies responsibly and present a complete solution to clients and decision-makers.

CURRICULUM ARCHITECTURE

15 Progressive Mastery Modules

The modules follow the natural sequence of a professional Vastu assignment: understand the laws, map the space, scan the land and energy, diagnose defects, select treatment, integrate systems, execute remedies and validate results.

01	Vastu Fundamentals & Governing Principles
02	Solar-Earth-Cosmic Energy Dynamics
03	Directional Intelligence: 8, 16 & 32
04	The 45 Devtas Energy Matrix
05	Energy Scanning & Land Diagnostics
06	Natural Orientation & Directional Balance
07	Built-Space Vastu Diagnostics
08	Water, Waste & Activity Placement
09	Remedial Science & Property Energy Balancing
10	45 Devta Activation & Balancing
11	360° Integration of Vastu Systems
12	Swarodaya & Consultant Decision Intelligence
13	Purpose-Based Vastu & Sector Specialisation
14	Vastu Rituals & Advanced Remedy Protocols
15	Industrial Mastery, Earth Energies, Tools, Marma & Intuition

MODULE 01

Vastu Fundamentals & Governing Principles

Build the conceptual foundation required for accurate, ethical and purpose-led Vastu practice.

What you will learn

- Meaning, purpose and scope of Vastu for homes, businesses, institutions and industries.
- Core principles governing space, direction, element, activity, form and energy.
- Controlling factors of Vastu and the relationship between human activity and spatial response.
- Difference between theoretical knowledge and applied diagnosis.

Practical application

- Establish a standard pre-consultation checklist.
- Define the purpose of a property before beginning analysis.
- Separate primary causes from secondary observations.

Mastery outcomes

- Explain Vastu principles in clear professional language.
- Create a strong diagnostic foundation for later modules.

VASTU PRINCIPLES	SPACE PURPOSE	FIVE ELEMENTS	ENERGY-FLOW
------------------	---------------	---------------	-------------

MODULE 02

Solar-Earth-Cosmic Energy Dynamics

Understand the natural forces that shape the energetic behaviour of land and built space.

What you will learn

- Sun movement and directional light dynamics.
- Earth energy, magnetic orientation and environmental influence.
- Cosmic energy interaction with land, structure and occupants.
- How natural forces influence the functional quality of directions and zones.

Practical application

- Observe sunlight, orientation and environmental exposure during site visits.
- Relate natural energy patterns to space planning and remedy selection.

Mastery outcomes

- Read a property as an energetic system, not only as a floor plan.
- Recognise the role of nature before applying corrective methods.

SOLAR ENERGY

EARTH MAGNETISM

COSMIC ENERGY

ORIENTATION

MODULE 03

Directional Intelligence: 8 Directions, 16 Zones & 32 Entrances

Develop precision in identifying, mapping and interpreting the directional structure of a property.

What you will learn

- Correctly identifying the eight cardinal and inter-cardinal directions.
- Dividing space into 16 functional Vastu zones.
- Understanding the 32 entrance sectors and their influence.
- Centre marking, degree reading, map orientation and directional boundaries.

Practical application

- Apply direction and zone grids to residential, commercial and industrial plans.
- Identify entrance location accurately rather than relying on general direction names.

Mastery outcomes

- Create reliable directional maps for professional consultation.
- Connect entrance, activity and zone results with greater accuracy.

8 DIRECTIONS	16 ZONES	32 ENTRANCES	DEGREE MAPPING
--------------	----------	--------------	----------------

MODULE 04

The 45 Devtas Energy Matrix

Decode the subtle energy governance of a space through the 45 Devta framework.

What you will learn

- Location, role and functional attributes of the 45 Devtas.
- Inner and outer energy fields within the spatial matrix.
- Balanced, weak, blocked and disturbed Devta expressions.
- Connecting Devta energies with real-life activities and outcomes.

Practical application

- Overlay the 45 Devta map on plans and identify affected energy points.
- Use the Devta framework to deepen diagnosis beyond broad directional analysis.

Mastery outcomes

- Recognise fine-grained energetic causes.
- Prepare for targeted Devta activation and balancing.

45 DEVTAS	ENERGY MATRIX	SPATIAL INTELLIGENCE	SUBTLE DIAGNOSIS
-----------	---------------	----------------------	------------------

MODULE 05

Energy Scanning & Land Diagnostics

Learn to test the energetic quality of land and property before recommending treatment.

What you will learn

- Prakriti testing and baseline energy assessment.
- Land testing, land vibration and site sensitivity.
- Identification of positive, negative, stagnant and disturbed energy patterns.
- Energy scanning before and after treatment.
- Selecting treatment based on observed energy condition.

Practical application

- Conduct a systematic land and property scan.
- Record energetic observations for comparison and validation.
- Differentiate environmental, structural and occupant-related influences.

Mastery outcomes

- Create an evidence-oriented energy assessment workflow.
- Recommend treatment with stronger diagnostic reasoning.

PRAKRITI TESTING	LAND VIBRATION	POSITIVE ENERGY	NEGATIVE ENERGY
------------------	----------------	-----------------	-----------------

MODULE 06

Natural Orientation & Directional Balance

Restore the natural functional orientation of every direction before applying specialised remedies.

What you will learn

- Natural activity and elemental orientation of directions.
- Directional imbalance caused by activity, load, opening, extension, cut or obstruction.
- Prioritising correction according to severity and purpose.
- Balancing direction, element and activity as one integrated system.

Practical application

- Prepare a directional balance sheet for each property.
- Sequence corrections from foundational balance to advanced treatment.

Mastery outcomes

- Avoid random remedy placement.
- Design corrections that respect the natural role of each direction.

DIRECTIONAL BALANCE	NATURAL ORIENTATION	ELEMENT CORRECTION	ACTIVITY MAPPING
---------------------	---------------------	--------------------	------------------

MODULE 07

Built-Space Vastu Diagnostics

Diagnose the structural and functional elements that most strongly influence property performance.

What you will learn

- Slopes, levels and height distribution.
- Staircases and movement dynamics.
- Kitchen placement, fire function and operational layout.
- Toilets, disposal activity and zone disturbance.
- All major activities within homes, offices, commercial spaces and factories.

Practical application

- Analyse defects by activity, zone, element and movement.
- Prepare priority-wise diagnostic notes for the client.

Mastery outcomes

- Convert observations into a clear diagnostic report.
- Identify high-impact issues before minor corrections.

SLOPES	STAIRS	KITCHEN	TOILET	ACTIVITY PLACEMENT
--------	--------	---------	--------	-----------------------

MODULE 08

Water, Waste & Activity Placement

Master the placement and energetic impact of key water and disposal systems.

What you will learn

- Underground water tank, borewell and swimming pool.
- Septic tank and disposal systems.
- Overhead water tank and load implications.
- Water movement, storage and relationship with directional qualities.
- Functional placement across residential, commercial and industrial properties.

Practical application

- Evaluate existing and proposed water installations.
- Suggest non-demolition balancing strategies where appropriate.
- Integrate utility placement with the overall property diagnosis.

Mastery outcomes

- Handle complex utility-related cases with clarity.
- Explain both functional and energetic consequences to clients.

UNDERGROUND TANK	SEPTIC TANK	BOREWELL	SWIMMING POOL	OVERHEAD TANK
------------------	-------------	----------	---------------	---------------

MODULE 09

Remedial Science & Property Energy Balancing

Build a systematic remedy-selection process based on diagnosis, compatibility and practical execution.

What you will learn

- Helix applications and directional correction.
- Ashta Digpal support and directional guardianship.
- Aroma, mantra, yantra and vibrational methods.
- Layering physical, symbolic and energetic remedies.
- Treatment planning, placement logic and post-remedy review.

Practical application

- Match each remedy to a clearly identified cause.
- Prepare remedy maps, installation instructions and follow-up checks.
- Avoid over-remedying and contradictory applications.

Mastery outcomes

- Move from remedy lists to a professional treatment protocol.
- Apply remedies with timing, intent and placement clarity.

HELIX	ASHTA DIGPAL	AROMA	MANTRA	YANTRA	ENERGY BALANCING
-------	--------------	-------	--------	--------	---------------------

MODULE 10

45 Devta Activation & Balancing

Apply focused methods to strengthen, harmonise and activate the 45 Devta field.

What you will learn

- Identifying Devta-specific imbalance and activation needs.
- Use of Divs, Studs and Springs.
- Aroma and grocery-based energy support.
- Methods for growth, upliftment and functional enhancement.
- Integrating Devta treatment with zone and activity diagnosis.

Practical application

- Prepare a Devta-wise treatment matrix.
- Select subtle interventions based on property purpose and observed imbalance.
- Monitor the space after activation.

Mastery outcomes

- Deliver fine-tuned 45 Devta solutions.
- Combine subtle energy work with practical Vastu corrections.

DIVS	STUDS	SPRINGS	DEVTA ACTIVATION	GROWTH	UPLIFTMENT
------	-------	---------	---------------------	--------	------------

MODULE 11

360° Integration of Vastu Systems

Learn how multiple Vastu disciplines can work together without contradiction.

What you will learn

- Traditional Vastu and present-day contemporary Vastu.
- Astro Vastu and Numero Vastu.
- Gemstone Therapy and Nakshatra Vastu.
- Muhurat Vastu and Plant Vastu.
- Shakun Shastra, Symbol Vastu and Yantra Vastu.
- Selecting the right system according to case purpose, evidence and practicality.

Practical application

- Create an integration hierarchy instead of mixing systems randomly.
- Use primary, supportive and optional methods within one case plan.
- Document the logic behind every selected system.

Mastery outcomes

- Build a coherent 360° consulting approach.
- Choose the right method at the right stage of the case.

TRADITIONAL VASTU	ASTRO VASTU	NUMERO VASTU	NAKSHATRA VASTU	YANTRA VASTU
-------------------	-------------	--------------	-----------------	--------------

MODULE 12

Swarodaya & Consultant Decision Intelligence

Use Swar Vigyan as a practical support for timing, observation, communication and consultant awareness.

What you will learn

- Introduction to Swarodaya and Swar Vigyan Shastra.
- Observation of active breath flow and energetic state.
- Utility for site visits, questioning, decision timing and remedy work.
- Combining Swar awareness with grounded professional judgement.

Practical application

- Create a personal pre-consultation observation practice.
- Use Swar-based awareness without replacing factual site analysis.
- Improve attentiveness during diagnosis and client interaction.

Mastery outcomes

- Develop greater timing sensitivity and consultant presence.
- Strengthen the intuitive and observational dimensions of practice.

SWARODAYA	SWAR VIGYAN	CONSULTANT TIMING	DECISION INTELLIGENCE
-----------	-------------	-------------------	-----------------------

MODULE 13

Purpose-Based Vastu & Sector Specialisation

Analyse every property according to what it is meant to achieve.

What you will learn

- Residential Vastu for wellbeing, relationships, health and stability.
- Commercial and business Vastu for clients, sales, operations and profitability.
- Industrial Vastu for production, movement, labour, storage and management.
- Professional spaces including schools, hospitals, factories, offices, showrooms and service environments.
- Purpose, user profile, activity flow and operational priorities.

Practical application

- Build sector-specific audit checklists.
- Translate Vastu observations into operational language for decision-makers.
- Analyse case studies from varied professional environments.

Mastery outcomes

- Handle larger and more specialised clients.
- Present recommendations aligned with real business and institutional objectives.

RESIDENTIAL VASTU	COMMERCIAL VASTU	INDUSTRIAL VASTU	BUSINESS GROWTH	SECTOR ANALYSIS
-------------------	------------------	------------------	-----------------	-----------------

MODULE 14

Vastu Rituals & Advanced Remedy Protocols

Understand purification, activation and advanced remedial procedures used in professional practice.

What you will learn

- Vastu purification and energetic preparation.
- Rituals for activation of Vastu energy.
- Toilet energy treatment and elevator-related corrections.
- Bagua mirror, directional energy yantras and Kalash Sthapana.
- Capsule Box applications and Master IR remedies.
- Protocols for removal of Pishach Yoga and deeply disturbed energy conditions.

Practical application

- Select rituals and remedies according to purpose, timing and suitability.
- Prepare a clear client protocol with material, placement and follow-up guidance.
- Maintain ethical boundaries and avoid fear-based communication.

Mastery outcomes

- Apply advanced remedies responsibly.
- Integrate ritual, symbolic and energy methods into a professional treatment plan.

VASTU PURIFICATION	KALASH STHAPANA	CAPSULE BOX	MASTER IR	PISHACH YOGA
-----------------------	-----------------	-------------	-----------	--------------

MODULE 15

Industrial Mastery, Earth Energies, Tools, Marma & Intuition

Bring together advanced fieldwork, large-project strategy and consultant mastery.

What you will learn

- Vastu of large industries, commercial spaces and factories.
- Understanding earth energy lines and geopathic stress.
- Professional tools: L-Rod, aura scanner, dowsing tools, Lecher antenna and hand dowsing.
- Finding Marma points and supportive healing methods.
- Intuition development, energetic sensitivity and disciplined validation.
- End-to-end case progression: enquiry, survey, diagnosis, treatment, execution, review and reporting.

Practical application

- Design a workflow for complex sites and multi-department projects.
- Cross-check intuitive observations with measurements, plans and tool readings.
- Prepare executive summaries, remedy maps and phased implementation plans.
- Review results and refine recommendations after implementation.

Mastery outcomes

- Approach big clients and projects with confidence.
- Combine technical, energetic and intuitive tools without losing structure.
- Complete a case from first brief to final follow-up.

INDUSTRIAL VASTU	GEOPATHIC STRESS	LECHER ANTENNA	MARMA POINTS	INTUITION
------------------	------------------	----------------	--------------	-----------

PROFESSIONAL METHOD

The Grandmaster Case Workflow

Every consultation should follow a repeatable process. This framework converts knowledge into a confident, client-ready professional service.

01	Purpose & Brief Understand the property, users, objectives, concerns and expected outcomes.
02	Survey & Mapping Collect plans, degrees, entrance, centre, zones, activities, utilities and site observations.
03	Energy Assessment Scan the land and space; observe positive, negative, stagnant and disturbed patterns.
04	Integrated Diagnosis Combine direction, zone, entrance, Devta, structure, activity, energy and purpose.
05	Treatment Strategy Prioritise corrections and select remedies with clear placement and application logic.
06	Implementation Guide installation, rituals, activation and practical execution in phases.
07	Validation Re-scan, review functionality, document changes and refine where required.
08	Professional Delivery Present the report, explain decisions, manage expectations and plan follow-up.

PRACTICAL LEARNING

Case Labs, Tool Practice & Application

The program is built to close the gap between knowing Vastu and applying it in real assignments. Practical sessions focus on maps, live observations, decision-making and remedy execution.

Map Intelligence Centre marking, degree reading, 16-zone mapping, 32 entrances and 45 Devta overlays.	Diagnostic Case Labs Residential, commercial, business, institutional, factory and industrial cases.
Energy & Land Testing Prakriti assessment, land vibration, energy scanning and treatment review.	Remedy Application Placement logic, installation sequence, activation and post-remedy validation.
Professional Tools L-Rod, aura scanner, dowsing tools, Lecher antenna and hand dowsing.	Consulting Practice Client briefing, big-project approach, reporting, presentation and follow-up.

Delivery structure

15	Concept-building classes Monday to Friday learning blocks
WEEKENDS	Practical real-life case mapping, tool application and guided analysis
3 MONTHS	Progressive learning from fundamentals to professional project mastery

GRADUATE OUTCOMES

What a Vastu Grandmaster Should Be Able to Do

- Interpret space through direction, zone, entrance, 45 Devta, activity and energy layers.
- Assess land vibration, positive and negative energy patterns and geopathic influences.
- Diagnose residential, commercial, business, institutional and industrial properties.
- Select and apply remedies according to cause, timing, compatibility and purpose.
- Integrate traditional, contemporary, Astro, Numero, Nakshatra, Plant, Symbol and Yantra Vastu.
- Use professional tools with observation, calibration, documentation and validation.
- Plan remedies for water systems, toilets, stairs, elevators, slopes and operational activities.
- Handle big clients, complex projects and multi-stage implementation with confidence.
- Prepare clear reports, remedy maps, installation guidance and follow-up protocols.
- Develop disciplined intuition while remaining anchored in structured diagnosis.

ENERGY TOOLS	45 DEVTAS	INDUSTRIAL VASTU	CONSULTING MASTERY

PROGRAM INFORMATION

The Vastu Grandmaster Program

Mentor	Acharya Vikul Bansal
Format	Online course with structured concept classes and practical case labs
Start Date	4 January 2027
Duration	3 months
Concept Classes	15 concept-building classes, Monday to Friday
Practical Learning	Saturday-Sunday real-life case mapping and application
Course Fee	₹52,700
Level	Advanced integrated Vastu mastery and professional practice

ONE PROGRAM. EVERY SYSTEM. COMPLETE PRACTICAL APPLICATION.

Designed to help serious learners move from fragmented Vastu knowledge to an integrated, applied and professional consulting practice.

THE NEXT LEVEL OF PROFESSIONAL VASTU PRACTICE

Understand deeply. Diagnose accurately. Apply responsibly.
Deliver confidently.
